

March 2023

Dear Valued Customer,

As part of our continuous improvement program, we are pleased to confirm that after some internal validation, we are able to increase the shelf life of the product in the original unopened container as detailed below:

Product Reference Code	Product Description	Current shelf life	Adjusted shelf life
90375950	073701500:SENSIJET FSE-522 EU MAG.:4*1GL	15 Months	24 Months
90375951	073701501:SENSIJET FSE-522 EU MAG:4*0.9K	15 Months	24 Months
90375952	073841500:SENSIJET FSE-525 US MAG.:4*1GL	15 Months	24 Months
90375953	073841501:SENSIJET FSE-525US MAG:4*0.9KG	15 Months	24 Months
90375935	021571500 SENSIJET FSE-542 YELLOW 1GL	15 Months	24 Months
90375936	021571501:SENSIJET FSE-542 YELLO:4*0.9KG	15 Months	24 Months
90375937	027151500 SENSIJET FSE-562 CYAN 1GL	15 Months	24 Months
90375938	027151501:SENSIJET FSE-562 CYAN:4*0.9KG	15 Months	24 Months

FSE inks should be stored in a controlled environment at a temperature between 12-25°C. If stored under these recommended conditions, the inks now have a shelf life of 24 months in the original unopened container. This change is effective immediately and will apply to any future orders received from this date.

We hope this allows you greater flexibility in use of this material and look forward to serving you in the near future.

Kind Regards

Simon Daplyn
